Drug and Alcohol Testing

The school division has a drug and alcohol testing program for school bus drivers and other employees who are required to hold a commercial driver’s license (CDL) by U.S. Department of Transportation Regulations who perform safety-sensitive functions as required by federal and state law and regulations.

Prohibited Conduct

Drivers are prohibited from alcohol possession and/or use on the job, use during the four hours before performing safety-sensitive functions, having prohibited concentrations of alcohol in their systems while on duty or performing safety-sensitive functions, and use during eight hours following an accident or until after undergoing a post-accident alcohol test whichever occurs first.
No driver shall report for duty or remain on duty requiring the performance of safety-sensitive functions when the driver uses any controlled substances except when the use is pursuant to the instructions of a licensed medical practitioner who is familiar with the driver’s medical history and has advised the driver that the substance does not adversely affect his ability to safely operate a commercial motor vehicle.

Required Testing

Drivers are subject to pre-employment/pre-duty drug testing, reasonable suspicion alcohol and drug testing, random alcohol and drug testing, post-accident alcohol and drug testing, return-to-duty and follow-up alcohol and drug testing pursuant to procedures set out in the federal regulations. Any employee who refuses to submit to a test shall not perform or continue to perform safety-sensitive functions.

Notification

Each driver receives educational materials that explain the requirements of federal law and regulations together with a copy of the division’s policy and procedures for meeting these requirements. Each driver must sign a statement certifying that he/she has received a copy of the above materials and the division shall maintain this signed copy.

Before performing each alcohol or controlled substance test, the division will notify the driver that the test is required by federal law or regulation.

Consequences if testing indicates drug or alcohol misuse

If the testing confirms prohibited alcohol concentration levels or the presence of a controlled substance, the employee shall be removed immediately from safety-sensitive functions in accordance with the federal regulations. All drivers shall be advised of resources available and before a driver is re-instated, if at all, the driver shall undergo an evaluation by a substance abuse professional, comply with any required rehabilitation and undergo a return-to-duty test with negative urine sample.

Record retention

The division shall maintain records in compliance with the federal regulations in a secure location with controlled access. With the driver’s consent, the division may obtain any of the information concerning drug and alcohol testing from the driver’s previous employer. A driver is entitled upon written request to obtain copies of any records pertaining to the driver’s use of alcohol or controlled substances including information pertaining to alcohol or drug tests.

Records shall be made available to a subsequent employer upon receipt of a written request from a driver. Disclosure by the subsequent employer is permitted only as expressly authorized by the terms of the driver’s request.
Test procedure

The division shall administer alcohol and controlled substance tests in accordance with federal laws.
