SOL REMEDIATION RECOVERY PROGRAM

The Charlottesville City School Board supports efforts to provide instructional support to those students who have demonstrated a need for such support by their failure to pass certain Standards of Learning (SOL) assessments. Therefore, the Charlottesville City School Board has implemented a Remediation Recovery Program as established by the Virginia Board of Education. Remediation recovery is a program which encourages successful remediation of students who do not pass certain SOL tests in kindergarten through grade 8 and high school English and mathematics. The program is administered through regulations promulgated by the Superintendent. Students eligible to participate in such program include students in kindergarten through grade 12 who have failed the SOL assessment in the areas of English or mathematics, or both.

Students who fail the grades 3 through 7 reading and/or mathematics tests and participate in a remediation recovery program after being promoted to the next grade will not retake the failed test or tests.

Students who fail either the grade 8 reading or mathematics test, or an end-of-course English or mathematics test, and participate in a remediation recovery program will continue to retake the applicable SOL test at the next regularly scheduled administration.

Schools shall maintain evidence of a student's participation in a remediation recovery program along with the scores of any SOL tests taken following remediation in the student's record.

The following students are ineligible for the remediation recovery program:

- Students in grade 8 who are retested because they were retained and had not previously passed the grade 8 test in reading or mathematics.
- Students who retake an end-of-course test as a result of failing and retaking an English or mathematics course at the high school level.
