

CCS HEALTH SCREENING TOOL

DOES YOUR CHILD HAVE ANY SYMPTOMS

Fever (100.0°+) or chills

Sore throat

Uncontrolled cough

Shortness of breath/difficulty breathing

Diarrhea, vomiting, or abdominal pain

Severe headache, especially with fever

Muscle or body aches

New loss of taste or smell

New congestion/runny nose

Fatigue (more than usual)

...OR RISK FACTORS?

Have you or anyone close to you: (1) had these symptoms, (2) tested positive for COVID-19, or (3) gotten tested and are waiting on results? Has anyone in your household been asked to quarantine for COVID?

IF THE ANSWER IS YES...

...THEN PLEASE KEEP YOUR CHILDREN HOME

and check with your healthcare provider for guidance.

If these symptoms are common for your child or have been treated by a healthcare provider, then please call your school nurse before you send your child to school.

OTHER REASONS FOR KIDS TO STAY HOME:

- Red, itchy, draining eyes.
- Other contagious disease, including pertussis, ringworm, impetigo, lice, or conjunctivitis.

Upon return to school, the principal/nurse must receive written notice that the student has received adequate treatment.
